

Subject Exchange of canopy hinge.

Effectivity : Glider CLUB ASTIR II all serial numbers and glider STANDARD ASTIR II all serial numbers.

Accomplishment : Latest by April 30, 1983

Reason : The mentioned gliders had sometimes a failure of the canopy hinge which requires the exchange of the hinge at all serial numbers.

Instructions : Exchange of the canopy hinge no. 104-2601 made of aluminum casting against the canopy hinge no. 102C-2620 made of aluminum sheet according to repair instructions to TM 306-21 dated 20.01.1983.

Material : Material and repair instructions for TM 306-21 are available at the manufacturer.

Weight and balance : No influence.

Remarks : The procedure can be carried out by an experienced person and must be signed in the logbook by a qualified inspector or by a recognized aircraft manufacturer.

Mattsies, 20.01.1983
